

SCHOOL OF PSYCHOLOGY & COUNSELING**LIABILITY INSURANCE POLICY**

It is the policy of the Doctoral Program in Counselor Education and Supervision (DPCES) and the Masters in Counseling (CMHC, MCF, and School Counseling) Programs to require current students to obtain malpractice (liability) insurance, and maintain said policy at all times while enrolled in the school.

Proof of liability insurance coverage must be submitted to the Field Placement Liaison by the first week of class of the student's first semester and at each policy renewal period. Students are required to maintain this insurance in accordance with the minimum coverage limits as set by the state or locality in which the student resides, i.e., the current Virginia coverage limits are \$2.60 million per incident/\$5.2 million aggregate. (Note: the liability limits in Virginia increase on July 1st of each year, please click [here](#) for where this is indicated in the Code of Virginia.)

Students are encouraged to consider various insurance programs. Generally, premiums range from \$25-\$50 per year of coverage, and membership to a premier counseling/psychology organization may be required (which of course does increase the cost). Just for comparison, a low premium for a licensed professional with the same amount of coverage would exceed several hundred dollars.

To help students get started, listed below are some carriers that have been used by previous students. You are welcome to obtain insurance from a company not listed here. ***Please note that not all of these companies will issue a policy with the limits that are required for students who reside in Virginia.***

Be sure to keep a copy of your insurance policy for yourself as you will need it often.

- American Counseling Association
