To Whom It May Concern:

Student is directly identified

I am the physician assistant responsible for Olivia Smith's primary care

Ms. Smith experienced an illness in April 2020 that led to hospitalization. She responded to treatment and was released within several days. After her initial recovery, she experienced a secondary flair-up and was hospitalized again in June of 2020. Both of these instances prevented her from participating in major life activities such as work and school.

As of January 2021, Ms. Smith has made a full recovery and has been able to resume her normal activities.
